

G12 BUSINESS PHONE FOR MICROSOFT TEAMS

Communicate & collaborate with an all-in-one solution

G12
communications

We give you the flexibility needed to scale your communications

Gain full access to the enhanced call features of G12's Cloud Business Phone System without leaving the Microsoft Teams interface. No Direct Routing or calling plan required.

The world is moving to Microsoft Teams. Do you have the right systems in place to make this a seamless transition? Get your company ready for this transition with a powerful business phone solution that gives you the flexibility and functionality you need to scale.

Make the most of your G12 phone system by integrating one of the best collaboration platforms on the market whenever you're ready. Empower your employees to do their best work with a platform that does it all.

Whether you need enhanced call features to diverse tools for collaboration, our Business Phone System for Teams solution provides you with the reliable infrastructure you need to maintain seamless communications.

HIGHLIGHTS

Teams interface for PC and mobility

Desk-phone and Teams ring together

Enhanced phone system features with Portal Access and User Administrative Control

Get the best of both worlds with a business phone for teams

All-in-one solution

Combine G12's robust features with the most popular collaboration solution in the market. Unlock productivity and empower the customer experience with G12 Business Phone for Teams.

Cross-platform integration

Gain access to G12's robust functionality across every device in the workplace, including desktop, mobile, and softphone applications—without ever having to leave the Teams interface.

Unlimited scalability

Effortlessly increase usage to meet higher demand. G12 Business Phone for Microsoft Teams lets you expand the number of available lines in a matter of seconds—with little to no added cost.

Advanced enterprise features

Take advantage of G12's premium call features, such as voicemail to email, real-time analytics, auto attendants, call recording, call center integration, SMS, and more.

Peace of mind

Full phone system redundancy between G12 Business Phone system and Microsoft Teams.

Intuitive user management

Add, remove, and monitor users with ease using G12's administrative portal, now available through the Microsoft Teams interface.

Reduced calling costs

Avoid expensive calling plans or Direct Routing. Eliminate the cost of managing in-house legacy systems while taking advantage of unlimited domestic calling within the US and Canada.

Ongoing support

Enhance user experience with 24/7 access to G12's technical support team. Get the help you need when you need it with our team of trained business phone technicians.

Scale your communications today with G12 business phone for Microsoft Teams
